Dynamic PYQ Topics

Rank 1

Asked 1 time

Years: 2017

Topic: Bluetooth Technology

Write a short note on Bluetooth technology.

Rank 2

Asked 1 time

Years: 2017

Topic: Draw Process Flowchart

Draw the process flowchart for CSMA/CA used in wireless LAN and explain.

Rank 3

Asked 1 time

Years: 2017

Topic: Out Features Wireless

List out the features of wireless LAN and explain it in detail. 4, Explain the CRC error detection mechanism using Generator polynomial.

Rank 4

Asked 1 time

Years: 2017

Topic: Out Various Approaches

List out the various approaches of quality of service.

Rank 5

Asked 1 time

Years: 2017

Topic: Congestion Control Technique

Explain the congestion control technique in TCP.

Rank 6

Asked 1 time

Years: 2017

Topic: Flags Available Tcp

What are the flags available in TCP header ? Explain.

Rank 7

Asked 1 time

Years: 2017

Topic: Performance Issues Associated

What are the performance issues associated with Transport layer protocols?

Rank 8

Asked 1 time

Years: 2017

Topic: About Major Components

Explain in detail about major components of an electronic mail system.

Rank 9

Asked 1 time

Years: 2017

Topic: Various Layers OSI

(a) Explain various layers of OSI reference model with a neat diagram. Maximum: 100 Marks (8x5=40marks) (b)

Rank 10

Asked 1 time

Years: 2017

Topic: Standard

(a) Or What are the common standard Ethernet implementations ? Explain each Ethernet standard with a neat diagram. Describe various Error detection and Error correction methods with suitable example " Or Discuss about congestion control algorithms (b) Throughput, delay; c) 802.4 TCP protocols. Or i transition diagram for TCP connection establishment, data transfer and the DNS in internet. Or Write short notes on Sliding Window. It. (4 x 16 = 64 marks)
